ARKANSAS

From the majestic Ozarks and stately Ouachitas to the wide and fertile prairie there is a vast expanse of natural beauty waiting to be discovered and explored. The terrain and scenery are as varied as those who choose to venture into this land of rivers, streams, waterfalls, mountains, valleys, and prairies.

Arkansas is large enough to provide variety, yet small enough to afford the visitor or native free access to all of her splendor.

Our state's past is still alive in its people and ageless scenery. The Indians, Conquistadors, French, and Confederates all have left their mark on our history.

The state is a virtual photographers' paradise with all the mountains, valleys, homesteads, and barns imaginable. In the fall Arkansas is a rainbow of color. Our many species of trees provide limitless variations of color seldom seen in other locations.

There are still many general stores where you can spit, chew, and swap tall tales about the big one that got away. Here the visitor can also learn about those secluded vistas and trails and the folklore surrounding them.

The state offers a wide variety of outdoor recreational possibilities: swimming, skiing, canoeing, hiking, fishing, and hunting are but just a few.

Arkansas is a land of infinite opportunities.

Up! up! my Friend, and quit your books!

Or surely you'll grow double:
Up! up! my Friend, and clear your looks;
Why all this toil and trouble?

The sun, above the mountain's head,
A freshening lustre mellow
Through all the long green fields
has spread,
His first sweet evening yellow.

Books? 'tis a dull and endless strife;
Come, hear the woodland linnet,
How sweet his music! on my life,
There's more of wisdom in it.

And hark! how blithe the throstle sings!
He, too, is no mean preacher:
Come forth into the light of things,
Let Nature be your teacher.

She has a world of ready wealth,
Our minds and hearts to bless-
Spontaneous wisdom breathed by health,
Truth breathed by cheerfulness.

One impulse from a vernal wood
May teach you more of man,
Of moral evil and of good,
Than all the sages can.

Sweet is the love which Nature brings;
Our meddling intellect
Mis-shapes the beauteous forms of things:
We murder to dissect.

Enough of Science and of Art;
Close up those barren leaves;
Come forth, and bring with you a heart
That watches and receives.

In Appreciation To The Honorable Dale Bumpers

In Appreciation To The Honorable Dale Bumpers

Prior to becoming Governor of Arkansas in January, 1971, Dale Bumpers had an abiding interest in health and health care. In his hometown of Charleston, he and his family had experienced first hand the vital importance of the availability of primary medical care in a rural Arkansas community.

This concern was intensified and reinforced during his travels over the state both before and after he became Governor; listening, learning, and gaining first hand impressions of the widespread concern about the inadequacy of basic health care in many, if not most of the non-metropolitan communities of this state.

Thus it was that the state's health care became one of the priority concerns of Dale Bumpers' administration as Governor. This concern was reflected in his sponsorship and leadership in providing the authorities and appropriations of state funds to construct on our campus a new education building, now ED

II; a new ambulatory facility, now the Ambulatory Care Center; and funds for the renovation of and new equipment for the University Hospital.

Concomitantly, it was Governor Bumpers who sponsored and supported the necessary appropriations and authorities to allow the College of Medicine to initiate the incremental increases in its admissions and the marked expansions of residency training positions which have occurred since 1973. It was during his administration and a direct result of his leadership that the Area Health Education Centers (AHEC) Program was established and funded at the UAMS, and the Rural Medical Scholarship Loan Program was brought to full fruition.

Governor Bumpers sponsored and guided through the Legislature a much needed expansion of the Medicaid Program in Arkansas, including for the first time coverage of the medically indigent, all children under 21 years from low income families, and the State Prescription Drug Program. These programs have provided the means for direly needed health care for untold thousands of low income Arkansans, and for the first time provided a means of reimbursement for physicians' services at the UAMS, and a more adequate payment for hospital and clinic services for previously indigent patients coming to our institution for care. The impact of these programs on this state, and more specifically on our total institution, are vividly evident all about us.

It is in recognition of his concern, vision, fortitude and leadership that we express through this means our gratitude to Dale Bumpers for his many contributions to the public's welfare in our state and to the unsurpassed growth of the University of Arkansas for Medical Sciences.

Administration

Man is a self-balancing, 28 jointed adaptor base biped, an electro-chemical reduction plant, integral with the segregated stowages of special energy extracts in storage batteries, for subsequent activation of thousands of hydraulic and pneumatic pumps, with motors attached, 62,000 miles of capillaries, millions of warning signals, railroad and conveyor systems; crushers and cranes ... and a universally distributed telephone system needing no servicing for 70 years if well-managed; the whole, extraordinary complex mechanism guided with exquisite precision from a turret in which are located telescopic and microscopic self-registering and recording range-finders, a spectroscope, etc ...

UAMSC, Taiwan Medical School To Embark On Exchange Program

An event involving Arkansas occurred at Kaohsiung, Taiwan, October 23, that was reported by every newspaper on the island and on Taiwanese television -and created hardly a ripple here.

The document which Dr. Harry P. Ward, Chancellor of the University of Arkansas for Medical Sciences, and his Taiwanese counterpart signed was an agreement to exchange faculty members and students and to work jointly on research projects between UAMS and the Kaohsiung (pronounced Gao-Chung) Medical College of Kaohsiung, near Taiwan's southern tip.

The signing of the exchange agreement was carried out with much ceremony and exchanges of gifts-Chinese scrolls and plaques and the like. There was even a commemorative concert, at which a student orchestra and soloists performed and, as expected, at which Mrs. Ward herself was invited to play.

According to Dr. Ward, this marks the first formal exchange program between American and Taiwanese medical institutions: it is definitely a first for UAMS.

In Memory Of Edwin Bently M.D.

(1824 - 1917)

In memory of this distinguished physician and medical educator, a portrait was presented by Dr. Thomas Bruce to Dean Russell L. Miller, M.D., of Howard University, College of Medicine. Pictured below is Dean Miller, with other respected promoters of medical education from the University of Arkansas for Medical Sciences and Howard University College of Medicine. A description of Dr. Bently's life and contributions to medicine follow.

Edwin Bently was born in New London County, Connecticut, July 3, 1824. He received his early education in the local common schools and under private tutors. He earned an M.D. from the University Medical College of New York City in 1849 and practiced medicine in Norwich, Connecticut until June 6, 1861. There is record that he graduated from the College of Physicians and Surgeons, the date of which is not clear.

In June of 1981, he was appointed Assistant Surgeon in the Fourth Connecticut Infantry, U.S. Volunteers. He was brevetted Lieutenant Colonel on March 13, 1865, for faithful and meritorious services, and on February 8, 1866, was appointed

Assistant Surgeon in the Regular Army remaining in Washington. He became the first Professor of Anatomy at Howard University in 1868, but he did not resign his commission. He was transferred to San Francisco, and served as Professor of Anatomy at the Medical College of the Pacific from 1870-1875. He was subsequently transferred to other places in California, Louisiana, Texas, and Pennsylvania.

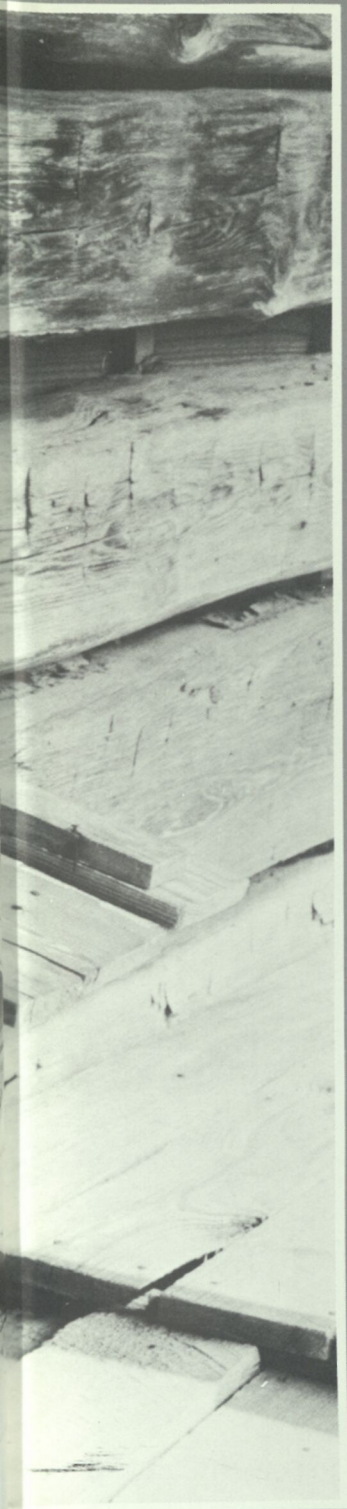

In 1878 he was assigned to Little Rock, where he entered into the professional and community life. He was instrumental in founding the Medical Branch of the University of Arkansas along with his associates Dr. P. O. Hooper and six other co-founders. Once the school was underway, he organized a free clinic in the rear of a hardware store located near the college. This was apparently the first such facility in the city. He retired from the Army with the rank of Lieutenant Colonel in 1888. He remained in Arkansas and became the third dean of the Medical Department of the University of Arkansas in 1904. He was associated with the school until his death in 1917, serving as dean from 1904 to 1907, and making significant contributions to medical education in the areas of Anatomy, Surgery, and Clinical Training.

Throughout his life, he had shown a pervasive spirit of compassion and concern for the indigent. His personality had earned respect and affection for him in a time of turmoil within the profession. Thus seen is the manner of man whose memory we honor.

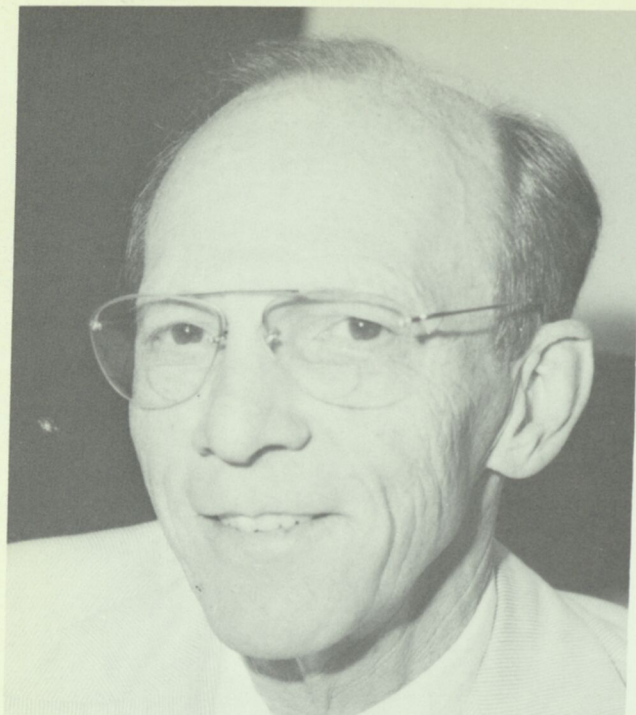

Area Health Education Centers

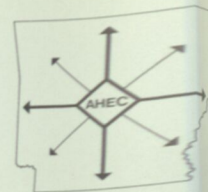

Dream delivers us to dream, and there is no end to illusion. Life is a train of moods like a string of beads, and as we pass through them they prove to be many colored lenses which paint the world their own hue, and each shows only what lies in its focus.

Ralph Waldo Emerson

David A. Hunter

Area Health Education Centers Program

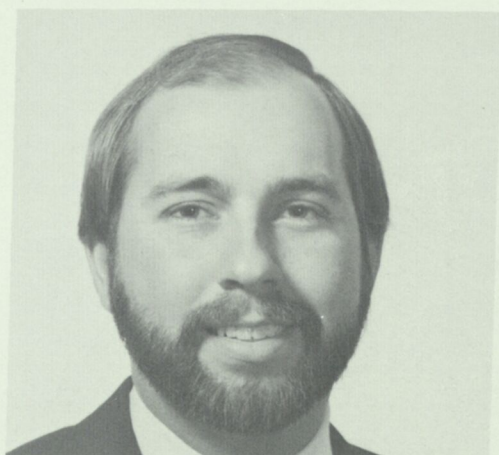

Roger B. Bost, M.D.
Executive Director

INTRODUCTION: An area Health Education (AHEC) program for the State of Arkansas was adopted, authorized and funded by the State Legislature in 1973. The program was assigned to the Chancellor, University of Arkansas for Medical Sciences. The AHEC Program was to focus principally on the state's primary health care needs, particularly in the medically underserved areas of Arkansas. It was to include efforts to retain more of the graduates of the state's College of Medicine for practice in Arkansas; the training of more primary care physicians, particularly family practitioners, for the state; and to improve the geographic distribution of these physicians over the state. The program was also to address the needs of the medically underserved areas of the state.

RESOURCES: AHEC Centers - The AHEC Program has established six education centers throughout Arkansas. These are located in El Dorado, Fayetteville/Springdale, Fort Smith, Jonesboro, Pine Bluff, and Texarkana. **Faculty** - Each AHEC has a full-time physician director, who is responsible for all programs within his specific area. A full complement of community physician-teachers, representative of the various medical specialties and subspecialties, participate in the teaching and training programs of each AHEC. **Community Hospitals** - Each AHEC program is designed to make the most effective use possible of the teaching and training resources of its community hospitals.

Paul Woodworth, Ph.D.
Associate Director

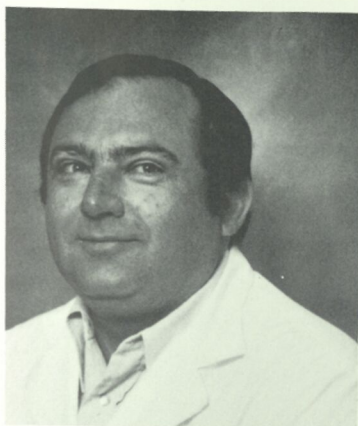

John C. Bangert
Associate Director

Library System - Each AHEC has a medical library of printed and audiovisual material and extends its services to health practitioners and health care institutions of the surrounding geographic area.

PROGRAMS: Sophomore Preceptorship - Sponsored by the College of Medicine and administered by AHEC, this is a program which offers an opportunity to work with a physician-teacher for periods of four to six weeks. **Senior Medical Student Electives** - The senior electives offered through the AHEC's augment the existing university medical education experience by providing students an opportunity to participate in various aspects of private practice medicine as it exists in a community and private hospital setting. **Nursing Student Rotations** - Fifth year nurse practitioner students from the UAMS are provided the opportunity to spend three months of their training at an AHEC. **Family Practice Residencies** - Fully accredited three year residency training programs in Family Practice have been established at AHEC's Fort Smith, Fayetteville/Springdale, Pine Bluff, El Dorado, and Jonesboro. **Continuing Education** - Each AHEC provides an ideal organizational system for continuing education, and an increasing number of offerings are being provided in each of the six AHEC's.

AHEC Fort Smith

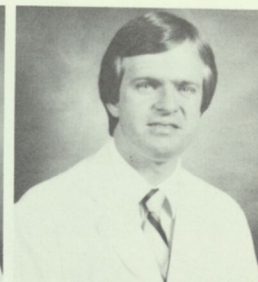

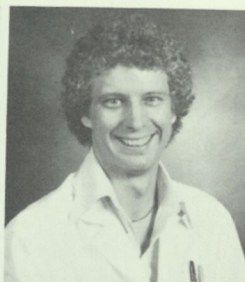

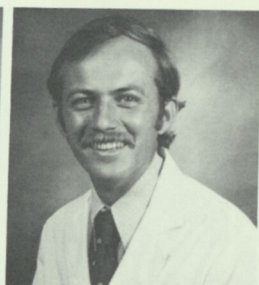

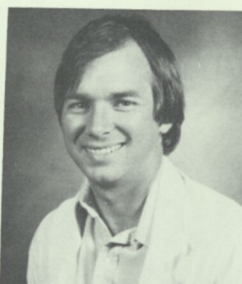

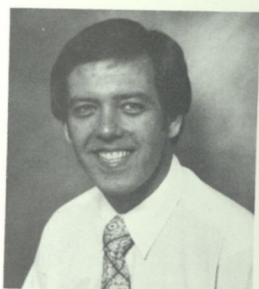

John D. Busby, M.D.
Residency Director

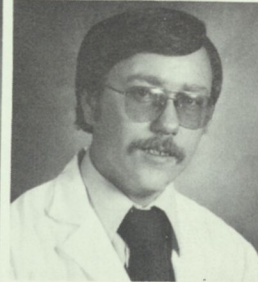

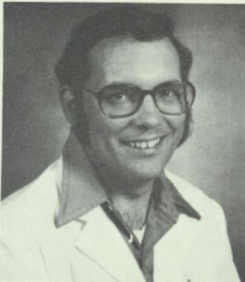

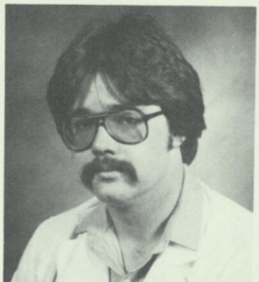

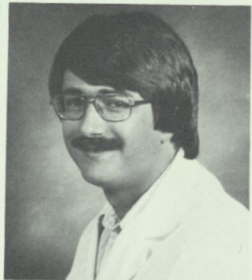

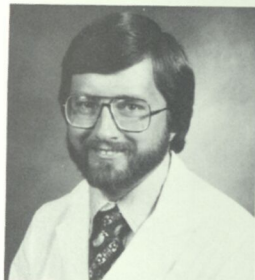

Annette V. Landrum, M.D.
AHEC Director

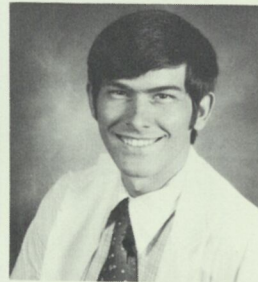

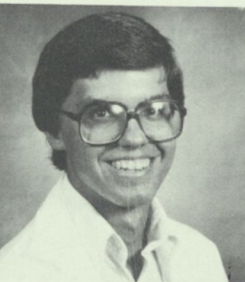

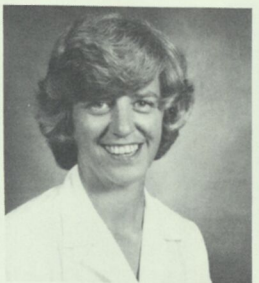

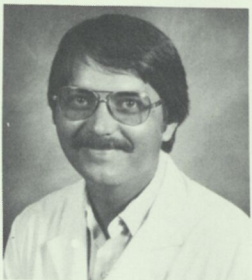

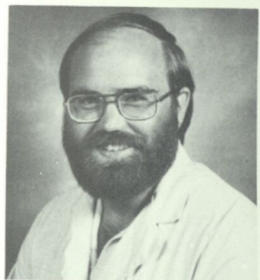

The Fort Smith AHEC provides senior electives in most of the major medical specialty and subspecialty areas. The excellence of this experience is due to the quality of the medical community, some 165 in number. Sparks Regional Medical Center, which is currently expanding to 681 beds, and St. Edward Mercy Medical Center, which has recently increased its capacity to 339 beds, demonstrate the progressive nature of the area. The Family Practice Residency Program is now in its sixth year with 18 residents.

AHEC Director

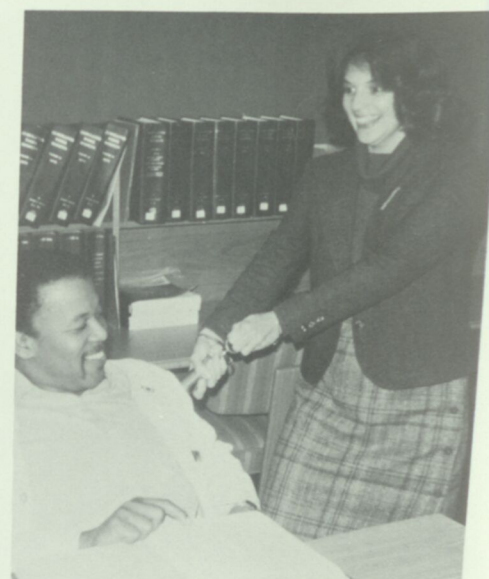

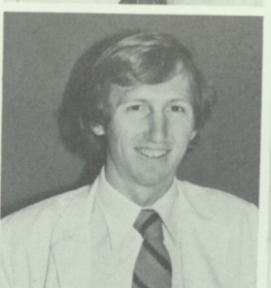

James A. Lindsey, M.D.
Residency Director

AHEC Pine Bluff was established in September, 1973, and since April, 1974, has had successful clinical rotations for UAMS medical students and internal medicine residents. AHEC offices are located by Jefferson Hospital. The hospital is a 315 bed facility, with a medical staff of 83 physicians. Medical and audiovisual libraries are located in the AHEC offices and staffed by UAMS trained librarians. The AHEC Pine Bluff Family Practice Residency Program first accepted residents in July 1977 and now has 10 residents.

AHEC El Dorado

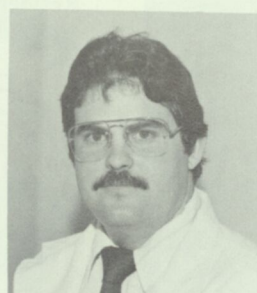

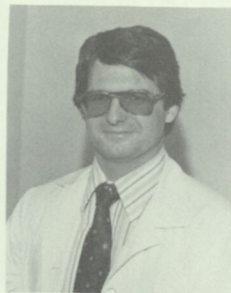

Berry Lee Moore, M.D.
Residency Director

Jacob P. Ellis, M.D.
AHEC Director

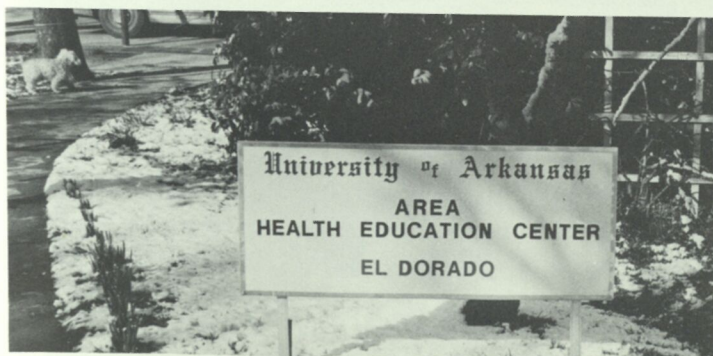

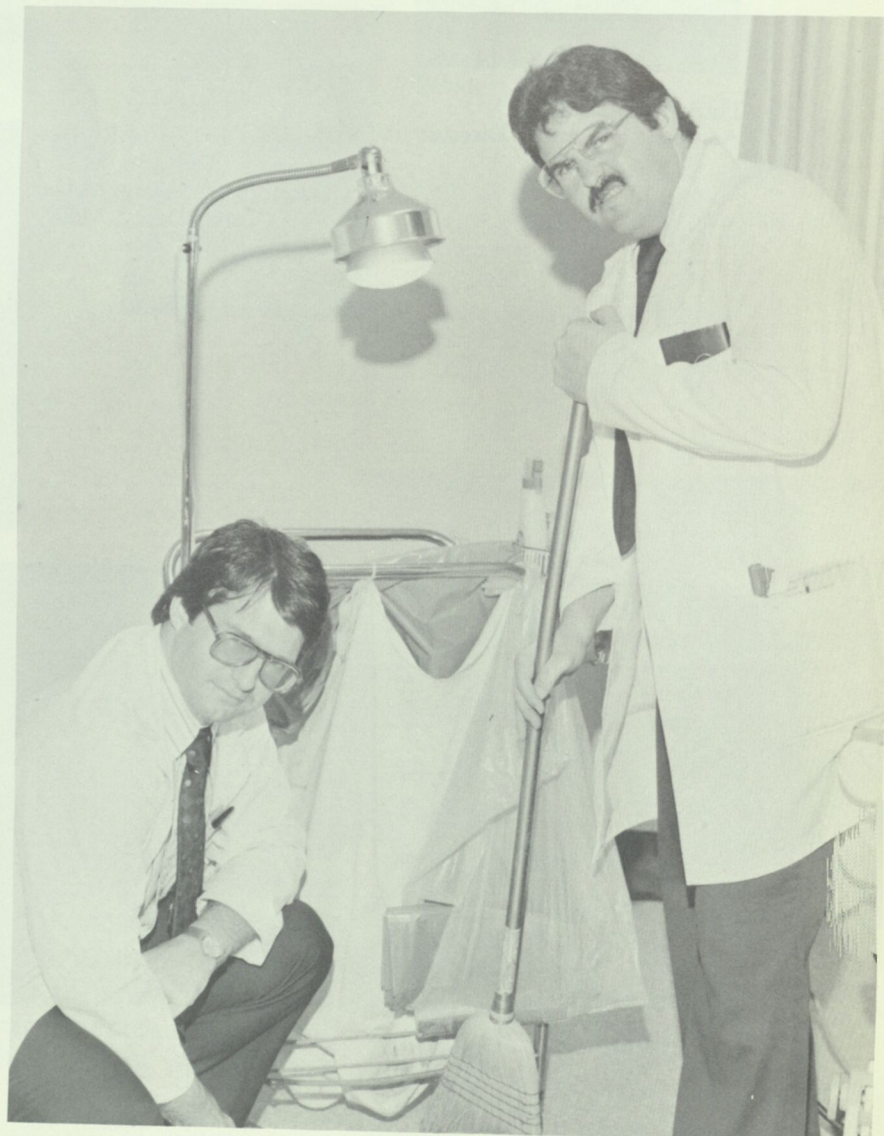

Established in November of 1973, the El Dorado AHEC program affords students and residents the opportunity to participate in the health sciences as practiced in rural and suburban communities of South Arkansas. Continuing education for physicians and nurses is also emphasized. The facilities of Warner Brown Hospital and Union Memorial Hospital are utilized in the training programs. AHEC El Dorado received accreditation for a three year Family Practice Residency Program which began operation in July 1980 with two residents.

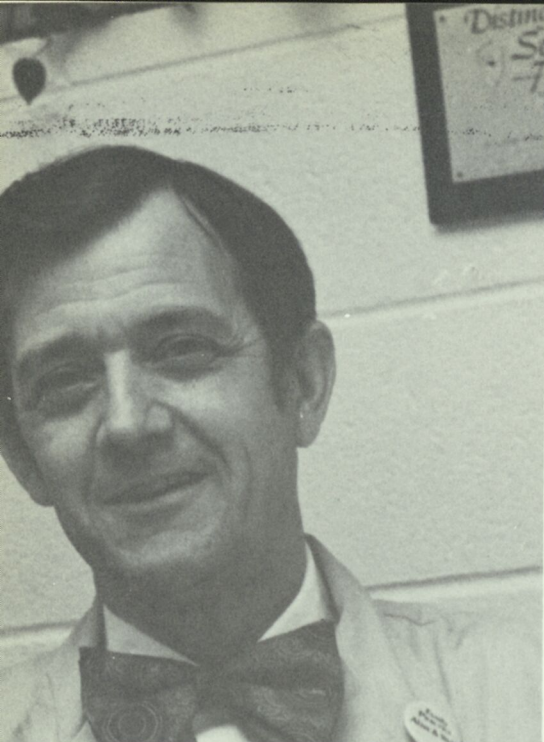

Jim Shepard, M.D.
Resident I

Pat Weber, M.D.

John R. Williams, M.D. Robert S. Cohen, M.D.
Residency Director AHEC Director

The Jonesboro AHEC, established in December, 1974, offers electives for senior medical students in almost 20 specialty fields. The facilities include St. Bernards Regional Medical Center and Craighead County Memorial Hospital which are served by 62 physicians. The area also benefits from a mental health center which has both in and out patient services. AHEC Jonesboro recently received accreditation for a three year Family Practice Program.

AHEC Texarkana

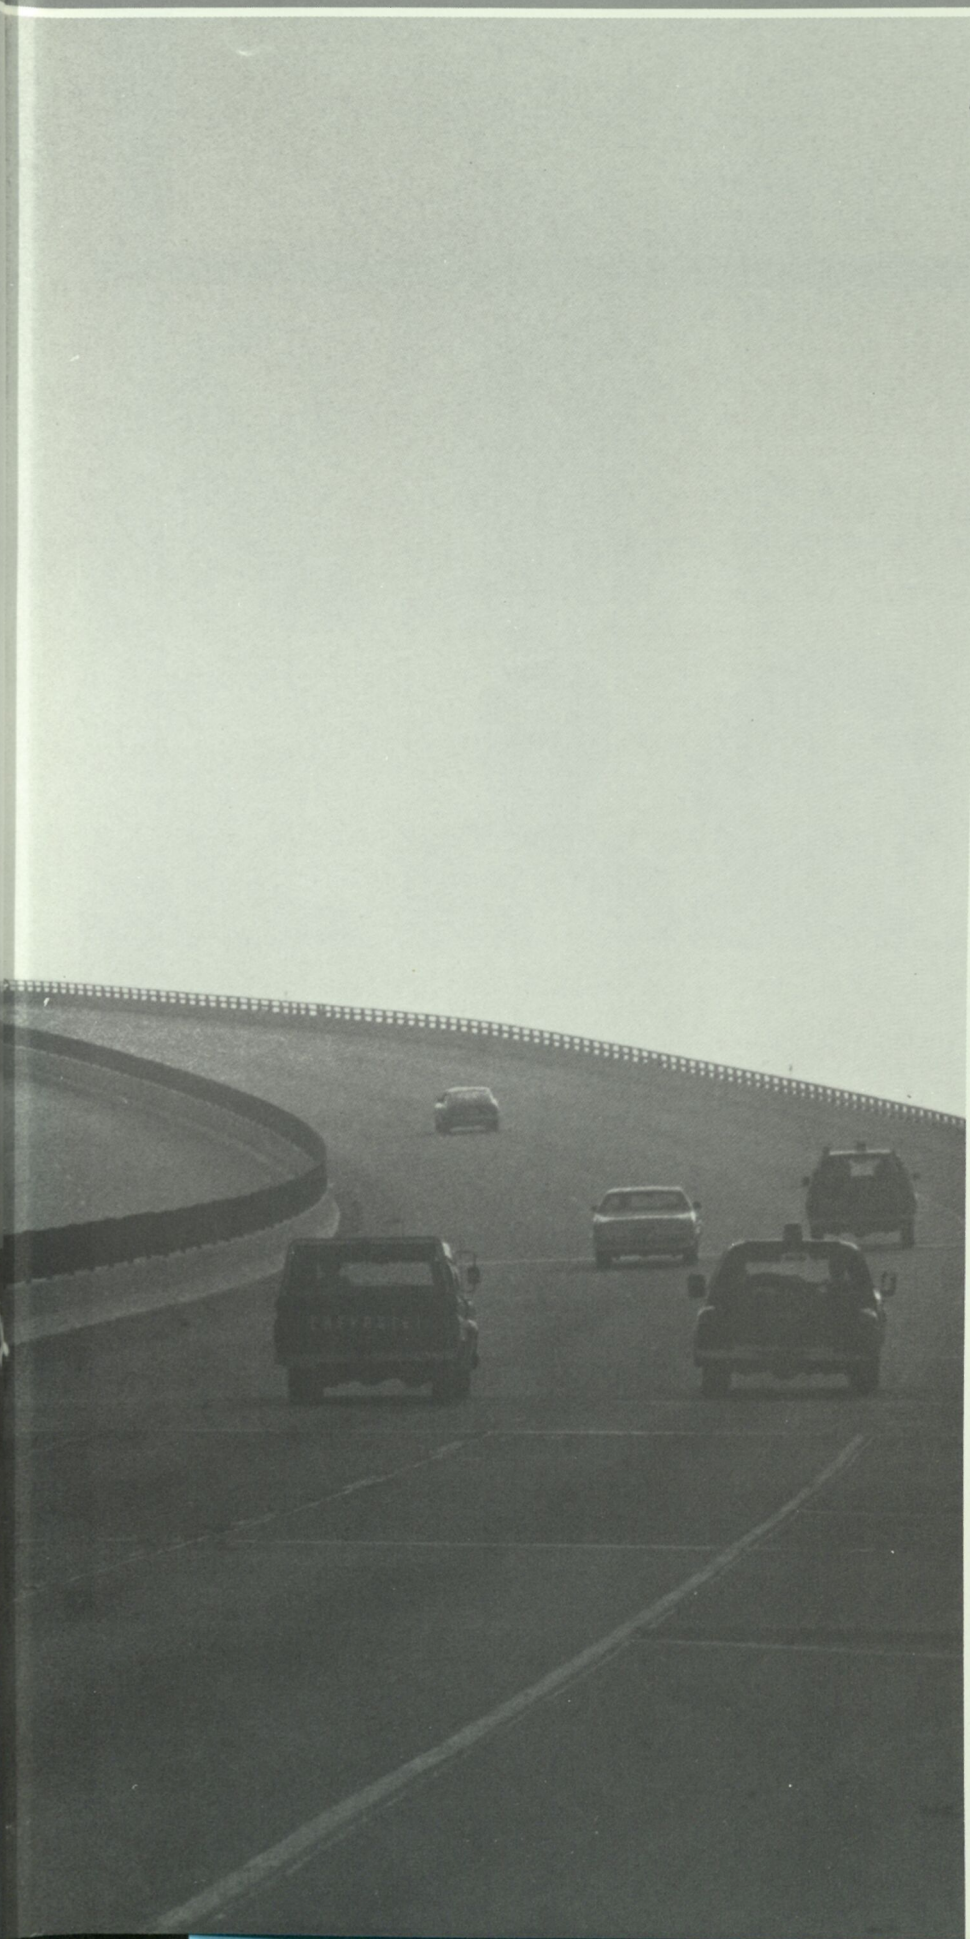

James B. Kittrell, M.D.
AHEC Director

AHEC Texarkana was established on August 1, 1975, with the appointment of James B. Kittrell, M.D., as the Director. The AHEC Texarkana Headquarters is located in facilities provided by St. Michael Hospital, Texarkana, Arkansas. The facilities of this hospital, as well as those of Wadley Hospital in Texarkana, Texas, are utilized for the AHEC educational program. Over 40 community physicians serve as faculty of the program. Since July of 1976 elective clerkships have been offered to senior medical students at AHEC Texarkana, with future plans including development of a Family Practice Residency Program.

IN MEMORY OF

Sidney Jacob Fields, B.S., M.A., Ph.D.

(Sept., 1913 - Feb., 1981)

**Emeritus Associate Professor
Of Psychiatry**

In memory of this distinguished author, medical educator, and psychotherapist, this page of the 1981 **Caduceus** is dedicated.

Dr. Fields was born in New York, New York, on Sept. 13, 1913, but spent most of his childhood at Orlando, Florida. He received a B.S. degree from George Washington University, Washington, D.C., in 1943. He subsequently served in World War II, including a year at the Georgetown School of Foreign Service studying Russian and then a year of service in Egypt. After the war, he received his M.A. and Ph.D. degrees in clinical psychology from the Catholic University of America in Washington, D.C.

Dr. Fields accepted a faculty position at the University of Arkansas College of Medicine in 1952. In 1954, he was promoted from Instructor and Clinical Psychologist to Assistant Professor and Senior Clinical Psychologist. In 1958, he advanced to Associate Professor. On retirement in 1978, he retained input into the Department of Psychiatry at the University of Arkansas for Medical Sciences as a consultant in group psychotherapy.

Of particular interest to Dr. Fields was group psychotherapy. In his book, **The Person Circle**, small group psychotherapeutics is described. For contributions to this mode of psychotherapy, Dr. Fields was given the Certificate of Award, by the American Group Psychotherapy Association in 1971. Some of his other publications include: "Doctors and Doctors" (1955), "A History of Psychology in Arkansas" (1963), "What Is Past Is Prologue" (1957), "The Licensing Act in Arkansas: Its Inception and Impact" (1959), and "The Natural History of a Group Therapy Program" (1967). Dr. Fields was Founding Chairman of the Arkansas Group Psychotherapy Society and the President of the Arkansas Psychological Association, The American Association of University Professors and the Southwestern Group Psychotherapy Society.

Throughout his life, Dr. Fields taught hundreds of medical students, psychiatry residents and psychology interns. His contribution is ongoing.

NCTR Has New Director

On left of Dr. Ward is new Director, Ronald W. Hart, Ph.D.

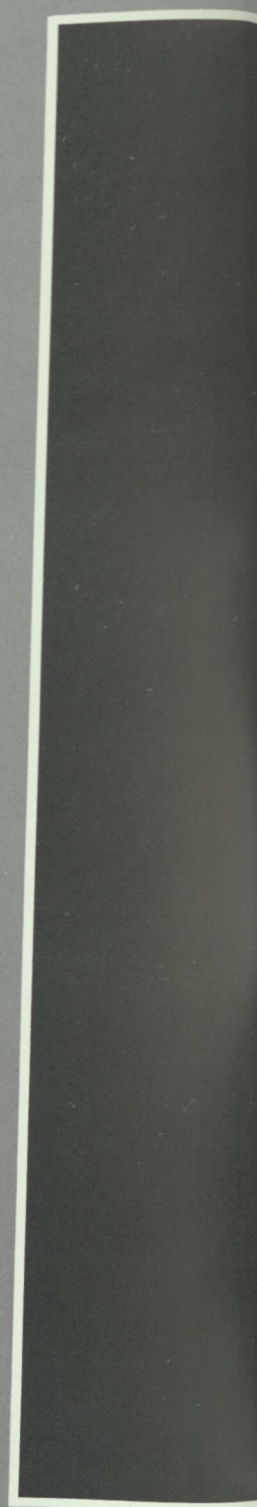

College Of Medicine Students

What does a man need? Really need? A few pounds of food each day, heat and shelter, six feet to lie down in-and some form of working activity that will yield a sense of accomplishment. That's all-in the material sense. And we know it. But we are brainwashed by one economic system until we end up in a tomb beneath a pyramid of time payments, mortgages, proposterous gadgetry, playthings that divert our attention from the sheer idiocy of the charade.

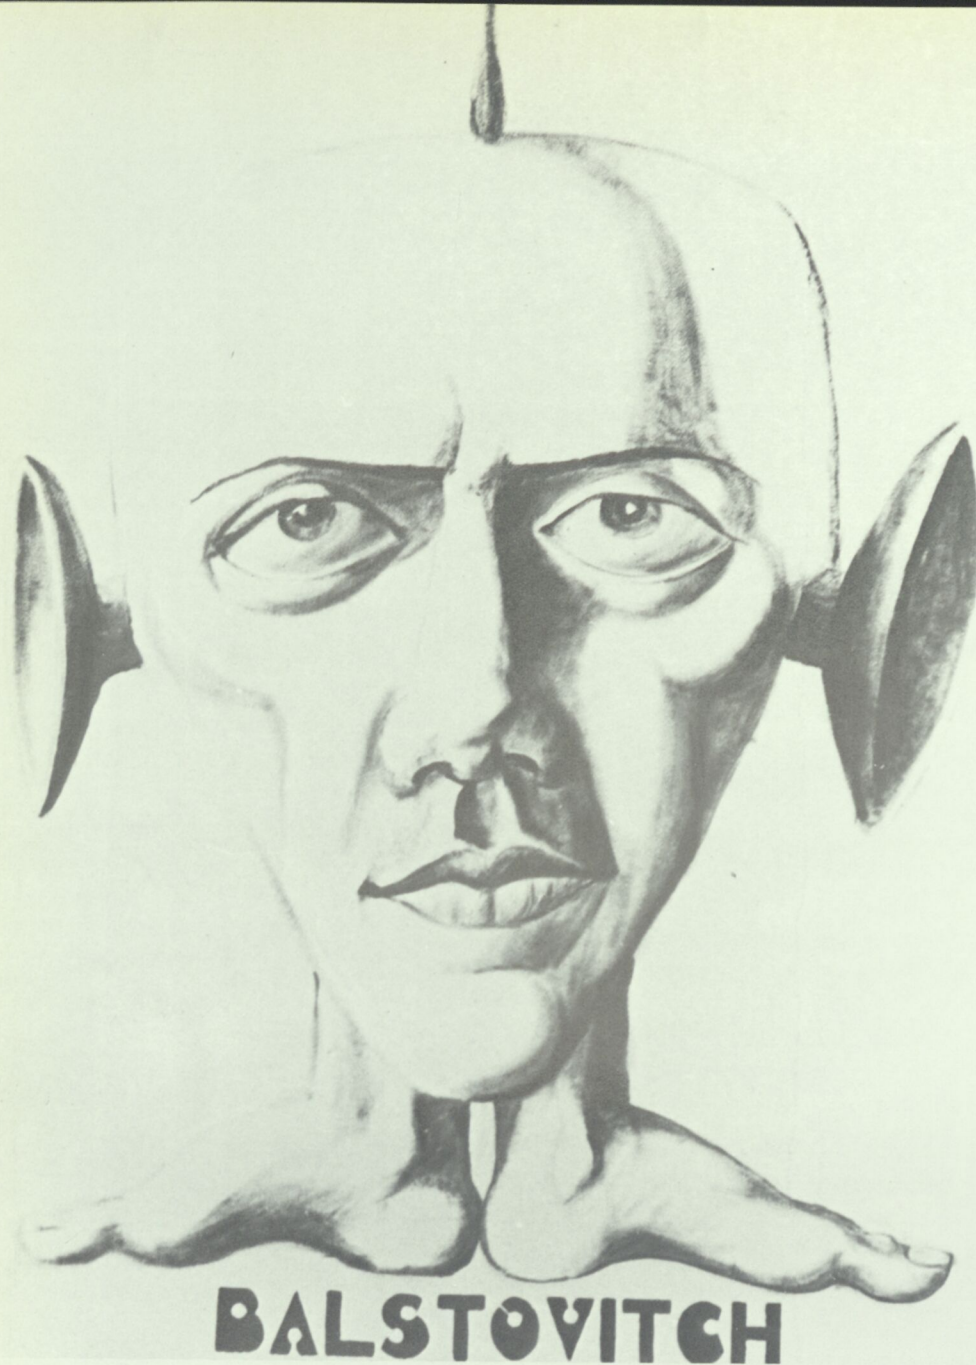

The years thunder by. The dreams of youth grow dim where they lie caked in dust on the shelves of patience. Before we know it, the tomb is sealed. Where, then, lies the answer? In choice. Which shall it be: Bankruptcy of purse or bankruptcy of life?

"The Wanderer"
Sterling Hayden

Dixie Knight

Balstovich was a creation of an as yet unidentified artist who accomplished his graffiti under the veil of darkness. This phantom diligently and laboriously performed his task on openly visible walls and barriers, taking hours to finish each one. No one ever caught a glimpse of the individual. These were monumental works ranging from a few feet to several feet in height. Although most are no longer visible, no one who observed them will ever forget or see anything quite like them again. This artist is not unlike us as students. We, too, have worked for the most part unobserved. No one knows how hard, how long, or under what circumstances we each have struggled to achieve our respective goals. Although we come and go, (our works, too, fading with time), we must find solice in the fact that we will never be forgotten.

ON BEING A JMS

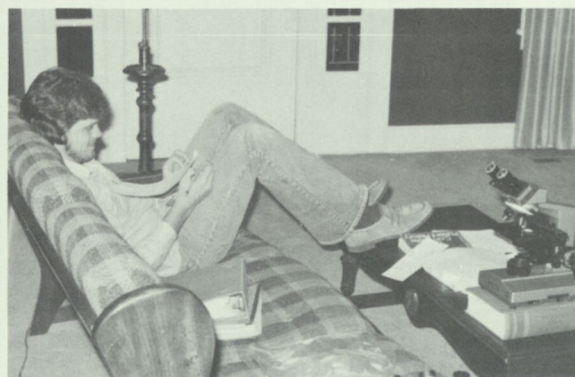

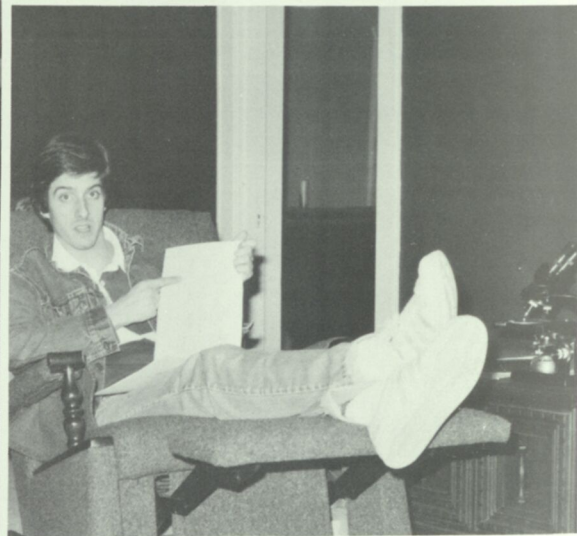

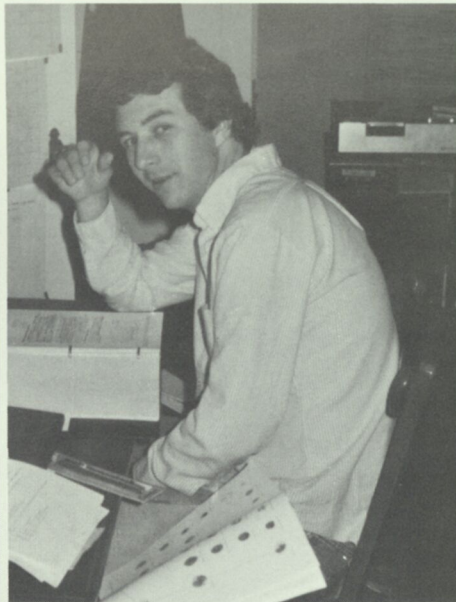

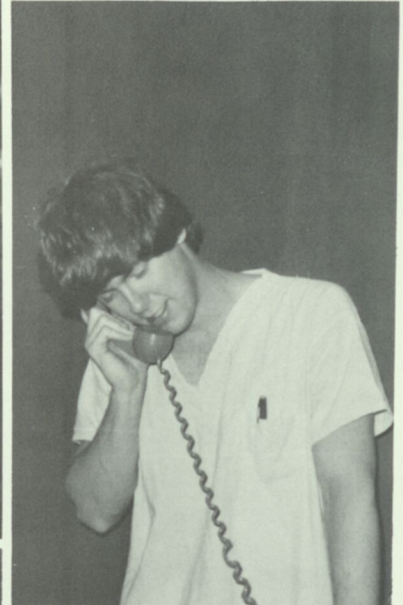

Be like the promontory against which the waves continually break, but it stands firm and tames the fury of the water around it. Unhappy am I, because this has happened to me? — Not so, but happy am I, though this has happened to me because I continue free from pain, neither crushed by the present nor fearing the future. For such a thing as this might have happened to every man; but every man would not have continued free from pain on such an occasion.

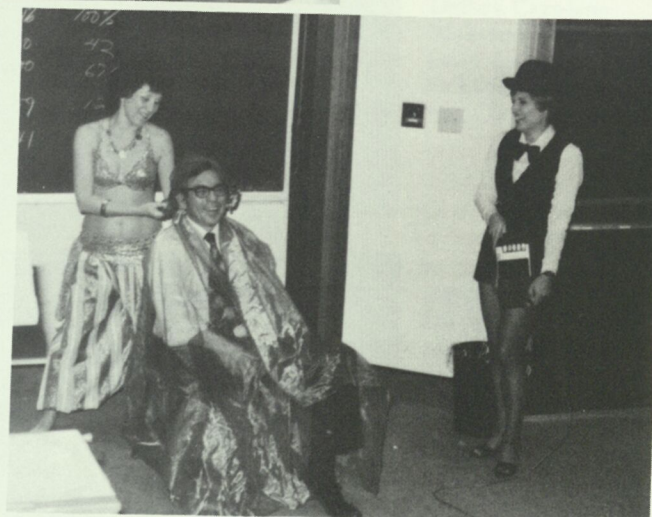

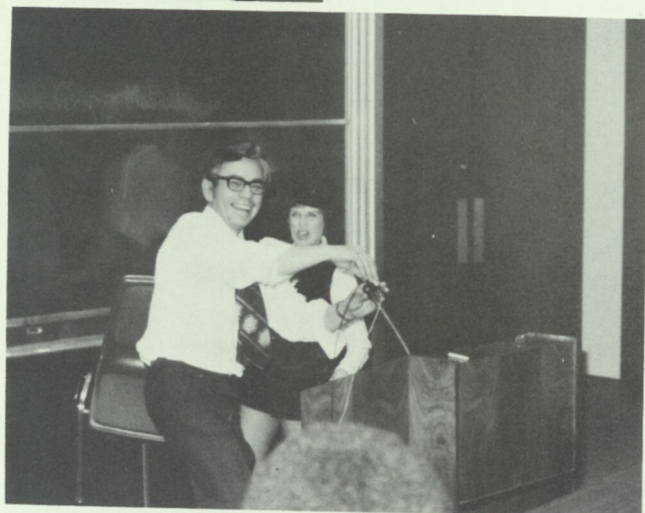

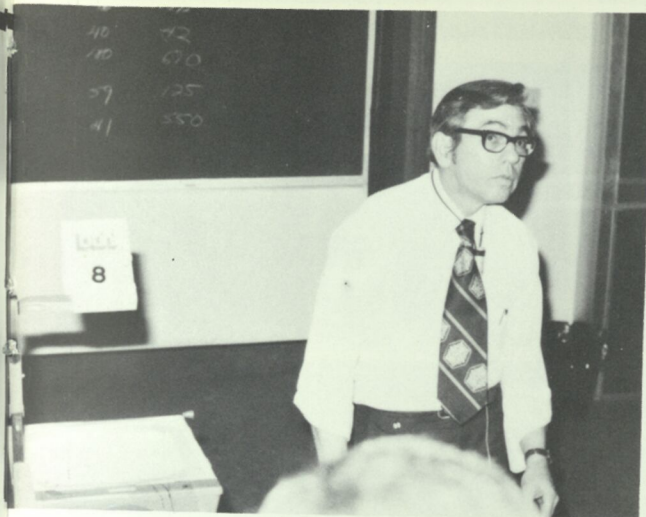

Markus Aurelius
121-180 A.D.

Nursing

I can look ahead . . .
and look forward to
what lies ahead
whatever that may be.

For a while, it was touch and go
But I've traveled
quite a distance
And I'm ready for the rest
of the journey.

Lin J. Little

David A. Hunter

FACULTY

WHAT'S IT LIKE TO TEACH NURSING?

"Teaching nursing students is challenging and stimulating."----Pat Perry.

"Teaching nursing students is akin to growing plants - it takes alot of fertilizer."--
--Margaret Hamilton.

"It's like being with your best friend every day. A beautiful experience."----Cheryl Rhoads.

"Unpredictable but lots of fun and very rewarding."----Claudia Leath.

"Teaching nursing students is very challenging. They come in to school wanting to learn about patients and leave knowing about themselves."----Betty Moseley.

"Teaching student nurses is a flowing changing process in which I learn and change as I teach them to learn and change. It is an experience that allows both personal and professional growth."----Doris Ferguson.

SN5

WHAT IS A NURSE PRACTITIONER?

- S. Mumbling the following words over and over: "documentation ... research ... can't take any more ... family analysis ... community project."
- O. Appears cachectic, looks 50 years older than stated age, poorly groomed, inappropriately dressed in a lab coat with a stethoscope around her neck and oto-ophthalmoscope in each pocket which she wears at all times, contorted facies, chain smoking cigarettes, chewing fingernails. Affect: irritable, anxious, ambivalent, depressed and hostile. Conversation: see S. Perception: delusional thinking; thinks that each patient she works with will achieve his optimal level for functioning. Frequent hallucinations. Cognition: disoriented to name, place and date; poor recent and remote memory as evidenced by never remembering when or where classes are held and never getting assignments in on the due dates. B/P 220/150, frank diaphoresis, Hgb. 9, Hct.20.
- A. General debilitation. Needs immediate intervention.
- P. Graduate this SNP ASAP.

JUST FOR TODAY

Just for today, I will try to live through this day only, and not tackle my whole life problem at once. I can do something for twelve hours that would appall me if I felt that I had to keep it up for a lifetime.

Just for today, I will try to strengthen my mind. I will study. I will learn something useful. I will not be a mental loafer. I will read something that requires effort, thought and concentration.

Just for today, I will have a quiet half hour all by myself, and relax. During this half hour, sometime, I will try to get a better perspective of my life.

Just for today, I will be unafraid. Especially I will not be afraid to enjoy what is beautiful, and to believe that as I give to the world, so the world will give to me.

SN3 What Is A Nurse Practitioner?

"A nurse practitioner is a well-qualified nurse, a caring human being, an independent thinker, but, most importantly, a patient advocate." ---- Joyce Moore.

"A Nurse practitioner is the next best thing to God. We promote the health, the happiness and the welfare of society." ---- Bennie Pollock.

"All nurse practitioners are patient people." --- Jane Coburn.

"A nurse practitioner is me to be." ---- Kaye Leonard.

"A nurse practitioner is what I plan to be 2½ years and a lot of SOAPing from now." --
-- Anne Williamson.

"A nurse practitioner . . . an advocate to the patient whether that be the individual, the family, or the community-the most flexible individual in the health care profession." --
-- Martha Vaught.

The Road Not Taken

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I—
I took the one less traveled by,
And that has made all the difference.

College Of Health Related Professions

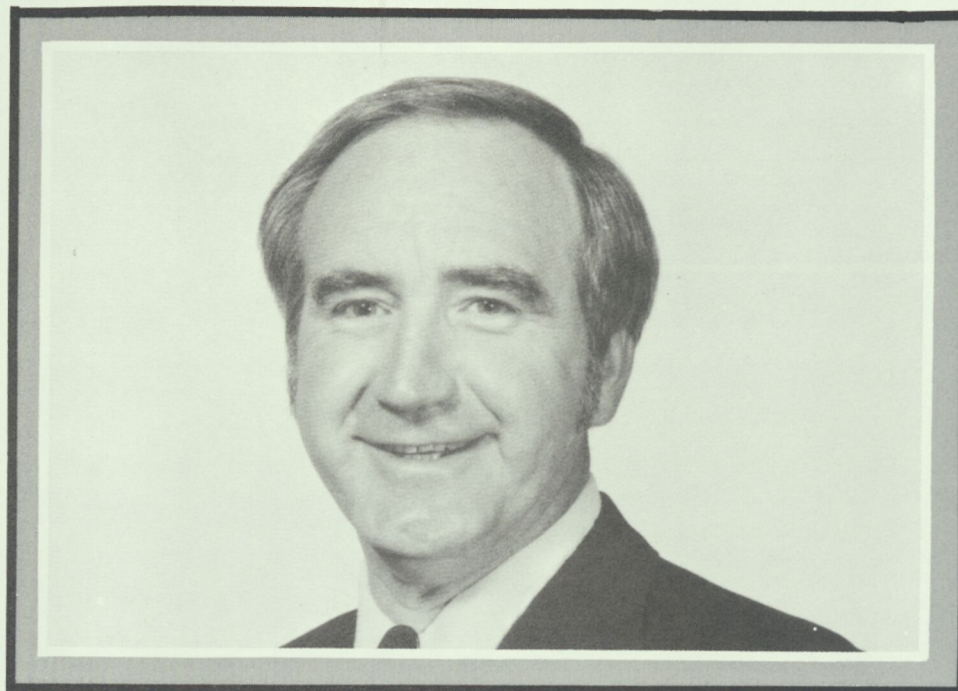

FRONTIERS

We often think of ourselves as living in a world which no longer has any unexplored frontiers. We speak of pioneering as a thing of the past. But in doing so we forget that the greatest adventure of all still challenges us—what Mr. Justice Holmes called “the adventure of the human mind.” Men may be hemmed in geographically, but every generation stands on the frontiers of the mind. In the world of ideas, there is always pioneering to be done, and it can be done by anyone who will use the equipment with which he is endowed. The great ideas belong to everyone.

Ode to a Dental Hygienist

Hygienist, in your dental chair,
I sit without a single care,
Except when tickled by your hair.

I know that when you grab the drills,
I need not fear the pain it kills.

You merely make my molars clean,
With pumice dropped with wintergreen.

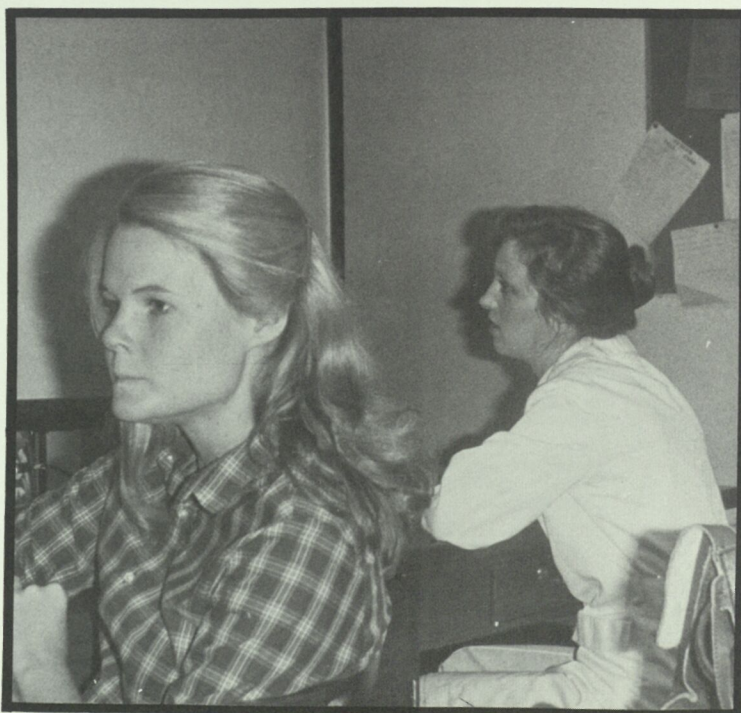

So I lean back in calm reflection,
With close up views of your complexion.

And taste the flavor of your thumbs,
while you massage my flabby gums.

To me no woman can be smarter,
than she who scales away my tartar.

And none more fitting for my bride,
Than she who knows me from inside.

At least as far as she has gotten,
She sees how much of me is rotten.

I may learn everything about oral anatomy and be able to tell you where every line angle or ridge is. If I don't have love, I'm only speaking hollow words.

I may understand oral pathology and make A's in periodontology. I may be a beautiful person inside, possessing a real faith in God that gives me unlimited strength. But without love, I am empty.

I may give my favorite clothes to the Salvation Army. I may march in the streets for peace. If I do all these things without love, I am simply wasting my time.

Love is patient with the narrow-minded who can't accept a new point of view.

Love speaks to everyone and isn't tied down by an exclusive clique.

Love isn't jealous, but is always ready to convince people of their own special rightness.

Love is gentle and kind.
Love doesn't try to hurt anyone.
Love never lets you down.
Love will always be.

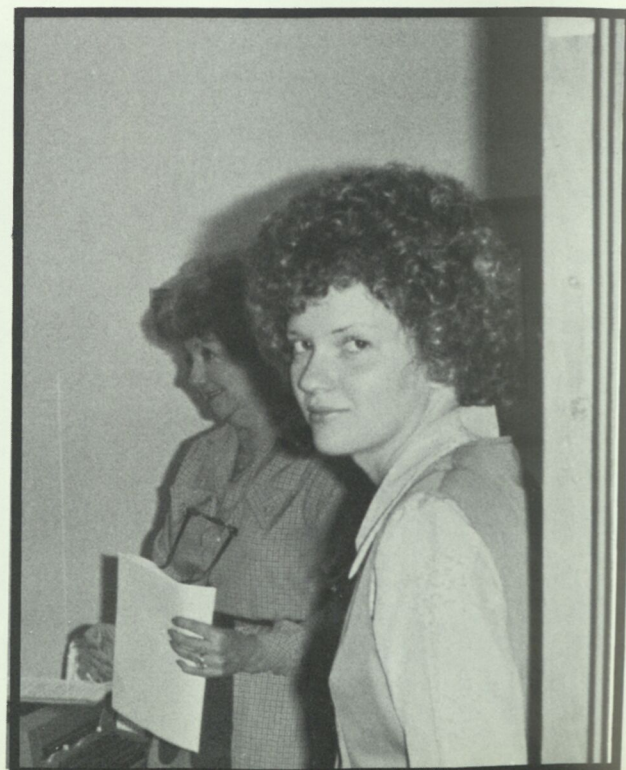

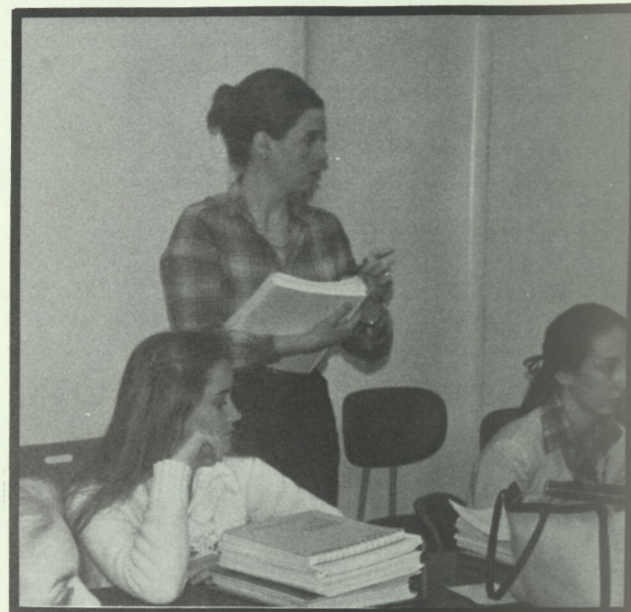

When I was in sixth grade I did everything I could to fit in with the crowd and look just like everyone else. Now that I'm older, my thinking has changed.

What we know now is like the dim, snowy picture of a broken TV. When the TV is fixed and the picture clears, we will gain a new outlook on all things.

For now, we have these ideas to live by:

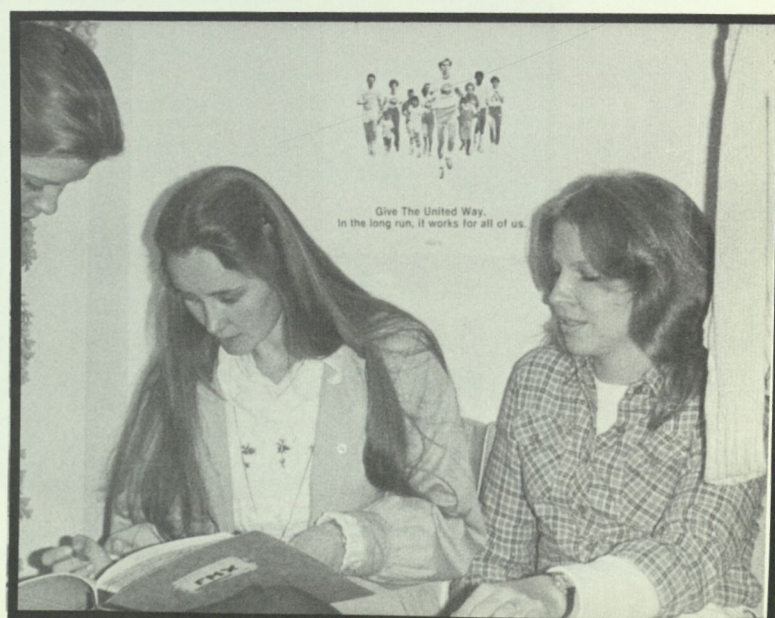

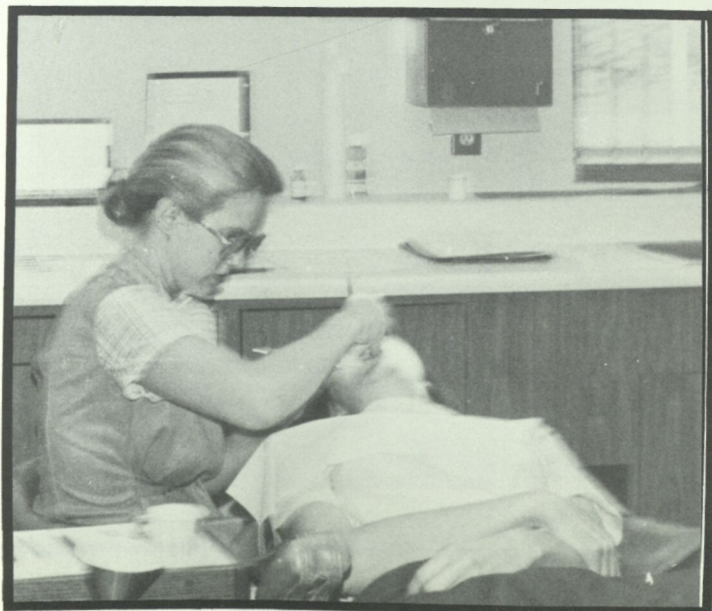

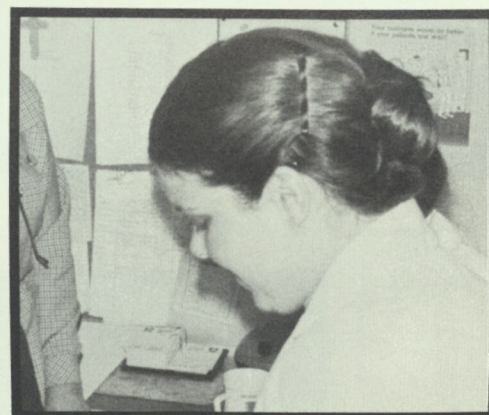

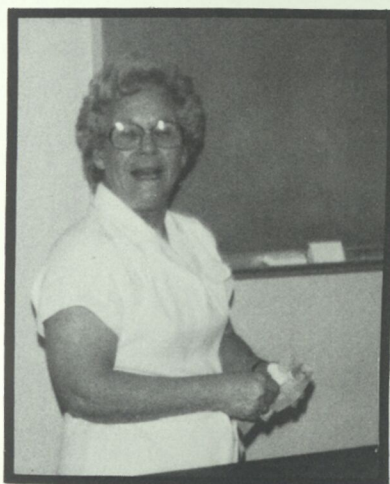

Faith in God and people and ourselves.
Hope that tomorrow has to be better.
And love.

Love is the one to remember.

Medical Technology

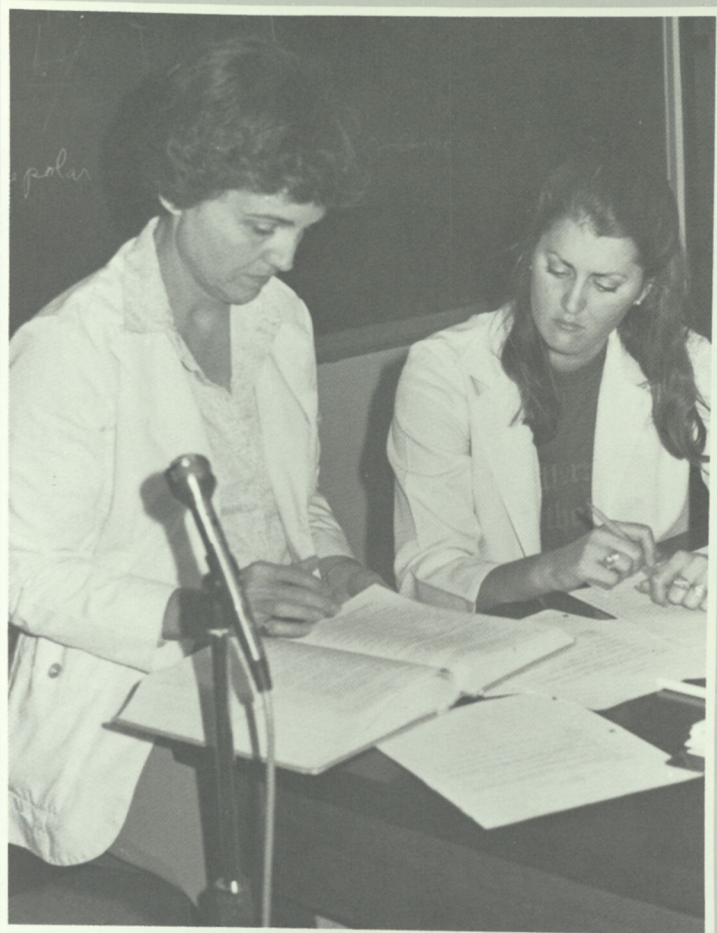

Medical Technology students, during the first few months of the program, are introduced to an intense study of theory and methods pertinent to the laboratory. This consists of a concentrated core of courses and laboratory applications covering a variety of information. Blood banking, chemical assays, hematological slide examination, and bacterial identification are just a few of the processes involved. The students are helped in their endeavors by a dedicated staff of professionals. The growth of friendship between students is ever present, along with the trials and tribulations shared. Pain is also a shadow . . . in being stuck by a learning partner . . . for studying long hours, but not long enough . . . and in the parting of friends. The remainder of the program encompasses practical application in various hospitals. Internships are performed in the different clinical laboratories where students perfect instrumental determinations and laboratory procedures. The culmination for the student is passing the national board at the end of the fifteen month internship program and becoming certified. There is always a new horizon to conquer for the Medical Technologist, as the field is ever-expanding.

WHAT IS RESPIRATORY THERAPY?

"Respiratory Therapy is an allied health specialty employed with medical direction in the treatment, management, control, diagnostic evaluation, and care of patients with deficiencies and abnormalities of the cardiopulmonary system."

Respiratory therapy is ventilators and arterial blood gases . . . fighting for trust and acceptance in the neonatal intensive care unit with the nurses . . . seeing patients die, sometimes after the exhaustive rigors of cardiopulmonary resuscitation . . . treating an asthmatic in severe bronchospasm . . . giving an I.P.P.B. Tx Q2hr . . . STRESS . . . listening to the ins and outs of breath sounds . . . quickly but cautiously trying to insert an endotracheal tube down somebody's throat . . . and last but not least, respiratory therapy is SPUTUM. That infamous, thick, slimy, greenish-yellow stuff that patients hack and cough up to show the therapist what a good job he or she has done!!

PARAMEDIC PROGRAM

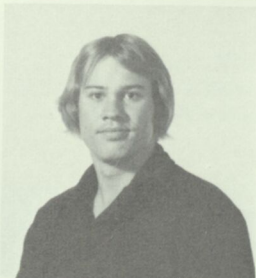

The UAMSC Paramedic Program, aside from having one of the most intensive curriculums, is also rated as one of the best training facilities for paramedics in the country. With 1800 hours of specialized training in advanced pre-hospital care, graduate paramedics play an expanding role in administering a greater range of emergency procedures for life-threatening conditions in acutely ill and injured patients. Paramedics from the department of emergency medical sciences also offer community service by providing advanced life support capabilities at the Razorback games at War Memorial Stadium.

CADUCEUS PATRONS 1981

The men and women whose names are listed below have, through their generosity, contributed to the financing of our yearbook. It is with their support and that of our advertisers that this book is published each year. With sincere gratitude, we of the yearbook staff say thank-you to these fine people and look forward to their continued support.

Advertisements

To laugh often and much; to win the respect of intelligent people and the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty; to find the best in others; to leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition; to know even one life has breathed easier because you lived. This is to have succeeded.

The Regional Medical Center For South Arkansas

Warner Brown Hospital is an acute general hospital consisting of 181 beds with full ancillary and supportive services. It is an Arkansas nonprofit corporation that was founded in 1919. Warner Brown Hospital is the tenth largest hospital in the state and has become a regional medical center with a large percentage of

its patients coming from outside the El Dorado community.

Our present hospital facility was constructed with an emphasis on balanced medical services and with the potential to expand its services as the need arises in future years.

Hot Springs Village

Your vacation hosts-Cooper Communities

Whatever your vacation plans ... your Hot Springs Village visit is distinctively different because it begins with a lovely guest home or townhouse. Surrounded by the quiet beauty of this pine country, your home offers the privacy, the convenience and the comfort to make your vacation a thoroughly satisfying experience.

Each residence is tastefully furnished for total living. Each includes year 'round air conditioning and television ... most feature a privacy deck or patio and some a fireplace. And, if you wish, there's the added economy of preparing your own meals in a totally electric kitchen.

Vacationers and residents alike have come to appreciate the growing Town Center ... with a grocery store, beauty salon, restaurant, teen center with snack bar, a florist and a gift shop, a full-service auto station, laundromat ... and at the DeSoto pro shop, a com-

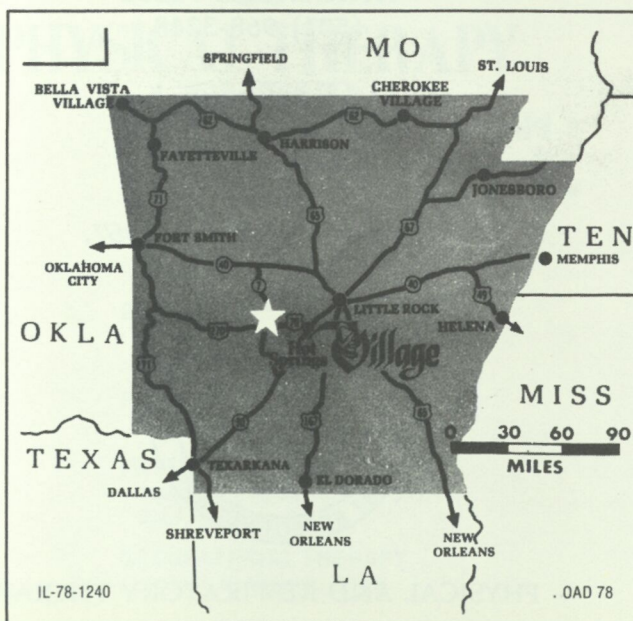

plete line of sports wear for men and women.

For those who have an interest in cultural, civic or special activity programs, the Village welcomes its visitors and property owners alike to attend any one of some 31 active groups-ranging from duplicate bridge to camera

clubs and crafts. Hot Springs Village also invites you to worship at any of its fine churches.

For those who come to Hot Springs Village, their Arkansas visit is made complete. Two magnificent 18-hole golf courses, 11 of the finest laykold-surface tennis courts, two complete recreational centers with swimming pools and game area ... plus the blue waters of Lakes DeSoto (with marina and boat dock), Coronado and Pineda appeal to every member of the family. The Village also boasts a splendid clubhouse and the Coronado community center and year 'round entertainment. There's so much to do ... yet Hot Springs Village begs you to slow down and enjoy a new life of leisure.

These outstanding facilities, most available for your use at a nominal rate, belong to the property owners association, and are maintained by a moderate monthly assessment.

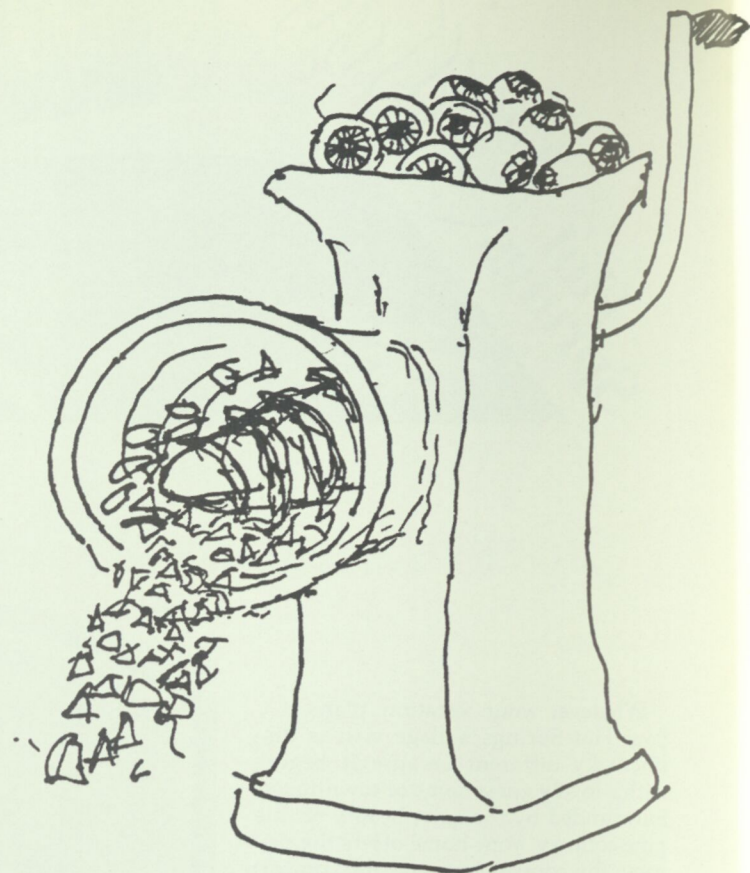

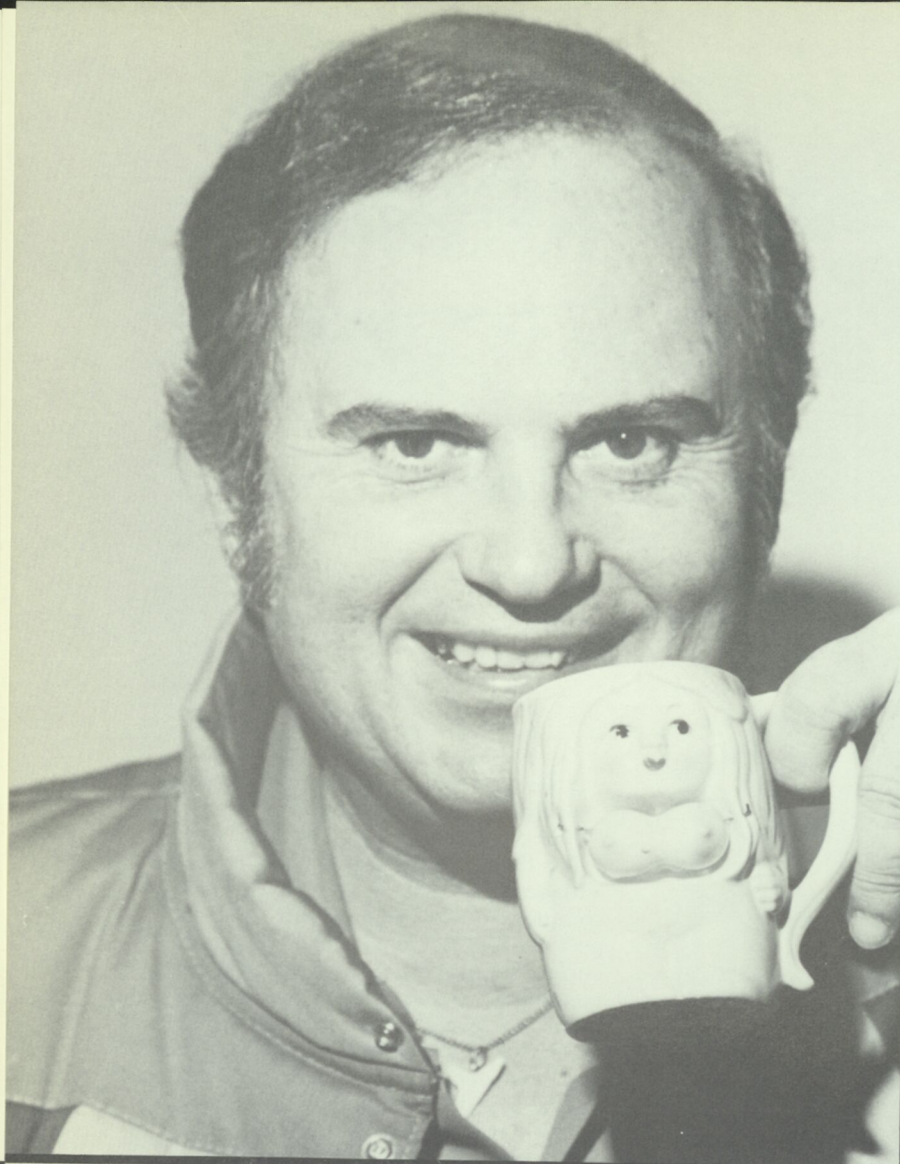

Arkansas' fine interstate system makes your trip to Hot Springs Village a pleasant one, no matter from which direction you come. Interstate 40 bisects the state from east to west — Memphis to Fort Smith; while Interstate 30 provides access from Little Rock and Texarkana via U.S. 70, U.S. 270 and State Highway 7. The main entrance to Hot Springs Village is located on State Highway 7, northeast of Hot Springs, Arkansas.

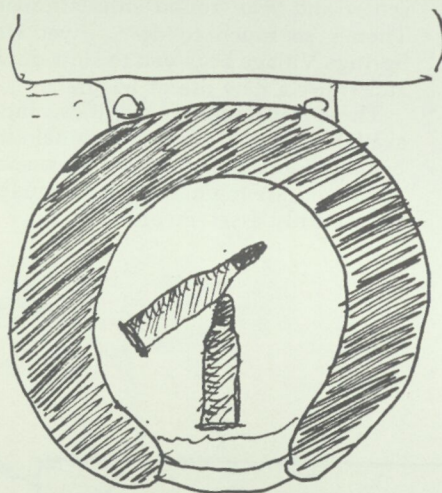

Distances indicated are from the location mentioned to the geographic center of Hot Springs Village (unless otherwise indicated), and each purchaser or guest should check the exact location of the property to be offered him in relation to the clubhouse, subdivision or other prominent locations.

KANSAS OFFEREES SHOULD OBTAIN A KANSAS PUBLIC OFFERING STATEMENT FROM THE DEVELOPER AND READ IT BEFORE SIGNING ANYTHING. THE SECURITIES COMMISSIONER OF KANSAS NEITHER RECOMMENDS THE PURCHASE OF THE PROPERTY NOR APPROVES THE MERITS OF THE OFFERING.

ABORTION

The choice is yours.

The decision of parenthood is a very personal one. Ultimately that decision can only be made through long, meaningful thought. That's the kind of decision we encourage.

Staffed by qualified doctors and counselors, we provide safe medical treatment for pregnant women seeking abortions, birth con-

trol, and abortion counseling. We offer free pregnancy testing.

**For information or a free brochure, call collect:

book as much as we en-
joyed presenting it.

David and Susan
Harshfield
1981

Finish each day and be done with it . . . You have
done what you could;
some blunders and absurdities no doubt crept in;
forget them as soon as you can.
Tomorrow is a new day; you shall begin it well and
serenely.
Ralph Waldo Emerson
